

## Observed Surgical Performance (OSP)

The main purpose of this tool is to provide feedback to the trainee so that they may progress towards competence. **Please note that you are evaluating the trainee's performance to provide patient care safely and independently and as such should consider their performance as compared to a practising urologist.**

<b>Date</b>		<b>Relevant EPA</b>	n/a				
<b>Trainee Name</b>		<b>Assessor Name</b>					
<b>Case Complexity</b>	Low Medium High	<b>SET</b>					
<b>Case Description</b>							
For each component, indicate on the line how much guidance the trainee requires to provide safe patient care. <b>Compare the trainee to a graduating urologist rather than their level of training.</b> Select 'n/a' if the component was not observed.		n/a	<table style="width: 100%; border: none;"> <tr> <td style="text-align: center;"> _ _ _ _ </td> </tr> <tr> <td style="text-align: center;">Significant Guidance</td> </tr> <tr> <td style="text-align: center;"> _ _ _ _ </td> </tr> <tr> <td style="text-align: center;">No Guidance Required</td> </tr> </table>	_ _ _ _	Significant Guidance	_ _ _ _	No Guidance Required
_ _ _ _							
Significant Guidance							
_ _ _ _							
No Guidance Required							
<b>Preoperative</b> Reviews management plan, ensures patient is ready for surgery and medication is managed, if required; reviews relevant investigations.			_ _ _ _				
<b>Safety</b> Participates in pre-operative team discussion and surgical checklists; positions patient safely.			_ _ _ _				
<b>Equipment</b> Selects and utilises surgical instruments and consumables efficiently.			_ _ _ _				
<b>Surgical skill</b> Demonstrates manual dexterity and coordination; efficiently performs procedural steps.			_ _ _ _				
<b>Situational awareness</b> Anticipates possible complications and plans and responds accordingly; manages unexpected issues.			_ _ _ _				
<b>Communication</b> Communicates effectively with theatre team; delegates tasks appropriately; maintains professionalism under pressure.			_ _ _ _				
<b>Postoperative</b> Comprehensively documents procedure, provides detailed instructions for postoperative care.			_ _ _ _				

**Assessor to complete**

**Overall Rating**

For the NEXT case of similar complexity, the trainee:

- Requires regular direction to talk them through (senior surgeon scrubbed may perform part of procedure).
- Requires intermittent direction as a prompt from time to time (senior surgeon scrubbed and assisting).
- Requires a senior colleague observing or immediately available just in case.
- Can complete independently and will request help if needed.
- Can complete complex cases.

**Describe at least one specific aspect the trainee completed well**

**Describe at least one priority area for improvement**

**Trainee to complete**

**Notes on aspects to incorporate in learning plan**

**Trainee Signature**

**Assessor Signature**
