

5TH USANZ FUNCTIONAL UROLOGY SYMPOSIUM AND THE 20TH PAN-PACIFIC CONTINENCE SOCIETY ANNUAL MEETING

Program disclaimer

Program details including session content, speakers, times, rooms, and social events are subject to change. The organising committee reserves the right to make necessary amendments due to academic, logistical, or unforeseen circumstances.

Friday 12 June 2026

11:00 – 12:30	PPCS business meeting (by invitation)	
Room:	Wharf 4	
13:00 – 14:30	Pre-conference workshops	Pre-conference workshops
	Workshop 1: Pelvic floor Medicine and Reconstructive Surgery	Workshop 2: Male LUTS BPH: Innovating LUTS management - minimally invasive BPH surgery
Room:	Wharf 1 & 2	Wharf 3 & 4
	Chairs: Eva Fong, Vincent Tse, Young-Suk Lee	Chairs: Giovanni Losco, Henry Woo
	Faculty and topics: Sophie Plagakis – <i>Non-mesh options for female SUI</i> Warren Lo Hwa Loon – <i>Robotic sacrocolpopexy: tips and tricks</i> Lewis Chan – <i>Role of pelvic floor ultrasound in planning surgery for mesh complications</i> Vincent Tse – <i>Female urethroplasty: a step-by-step approach</i> Anthony Kiosoglous – <i>The martius fat pedicled graft: when is it indicated?</i> Ming -Hsuan Ku – <i>Update on managing bladder pain syndrome in 2026</i>	The male LUTS/BPH workshop aims to educate the participants on the contemporary understanding of the pathophysiology of male LUTS/BPH and sexual function, and how patients (and clinicians) want a minimally invasive surgical treatment (MIST) in BPH that provides immediate benefits in terms of sustained improvements in urinary function and preservation of underlying sexual function. Recent literature on MIST in BPH will be discussed with emphasis on what is effective, durable, with early return to normal activity (and work), and more importantly, actually preserves sexual function postoperatively.
14:30 – 15:00	Refreshment break	

15:00 – 16:30	Workshop 3: Neuromodulation/OAB/UAB	Workshop 4: Penile prosthesis and reconstruction
Room:	Wharf 1 & 2	Wharf 3 & 4
	Chairs: Ailsa Wilson Edwards, Courtenay West	Chairs: Eric Chung, Jay Simhan, Koenraad van Renterghem, Shannon Kim
	Faculty and topics: David Ginsberg – <i>Female functional outlet obstruction: how to diagnose and treatment options</i> <i>Nocturia management update in 2026</i> Amanda Chung – <i>Technical pearls and troubleshooting in SNM Implantation</i> Danielle Delaney – <i>Implantable PTNS - principles and outcomes</i> Marnique Basto: <i>Detrusor underactivity - what is the role of neuromodulation and outlet surgery?</i> Zola Wijayanti – <i>Drugs, neuromodulation and botulinum toxin - can they be used in combination for difficult OAB cases?</i>	This workshop focuses on contemporary understanding and surgical nuances of penile prosthesis implant and artificial urinary sphincter surgery. Pros and cons of inflatable vs malleable penile prosthesis implants and “tips and tricks” will be shared by the experts. Time will be set aside for hypotheticals and “how to get out of trouble situations”. Sponsored by 
16:30	Workshops conclude	
17:00 – 18:00	Young generation forum and moderated poster session	
Room:	Wharf 1, 2 & 3	
	Chairs: Marnique Basto, Yu-Chen Chen, Samuel Tan	
	Rapid-fire presentations	
17:00	Radika Naufal – <i>Clinical predictors of vesicovaginal fistula repair outcomes: a retrospective analysis from a tertiary referral center</i>	
17:05	Yuki Kyoda – <i>Association between behavioral change and nocturia improvement: a multicenter analysis using a self-check sheet</i>	
17:10	Juhyun Park – <i>Malignant etiology and stricture length predict long-term failure of ureteral balloon dilation: a retrospective cohort study of stent-free survival</i>	
17:15	Matthew Kwon – <i>Post-operative retention as a predictor of outcomes following periurethral bulkamid injection of stress incontinence in females</i>	
17:20	Vu Huy Pham – <i>Update in outcome on laparoscopic pectopexy in apical vaginal prolapse</i>	
17:25	Yonatan Adinata – <i>Extracorporeal shockwave therapy for primary prostate pain syndrome: symptom and quality of life improvement</i>	
17:30	Zhonghan Zhou – <i>Grading vesicoureteral reflux from VCUG images using a general-purpose multimodal large language model</i>	
17:35	Jisung Shim – <i>Treatment persistence of pentosan polysulfate in IC/BPS: a 4-year real-world analysis from a nationwide korean cohort</i>	
17:40	Susanna Ahern – <i>Development of a risk-adjustment model for stress urinary incontinence: a national registry-based study</i>	
17:45	Yu Hsuan Chen – <i>Development of a point-based risk score for predicting urinary tract infection after multichannel urodynamic study</i>	

17:50	Sarah Whitty – <i>Real-world evaluation of the efficacy of the novoglan device combined with topical corticosteroid cream in the management of adult phimosis: a pilot study</i>
17:55	Yu Hsuan Chen – <i>Limited effectiveness of antibiotic prophylaxis in non-index patients undergoing urodynamic study: insights into failure mechanisms</i>

Saturday 13 June 2026

07:00 – 08:00	Breakfast symposium
Room:	Wharf 1–3
	Topic: <i>Commonly seen, seldom discussed: topical issues in OAB management 2026</i>
	Moderators: Tzu-Ping Lin, Saras Serani Sesari
	Audrey Wang - <i>Urinary microbiome and OAB: is there a connection?</i> -
	Muhd Zaki Azre Redzuan - <i>How I tackle the OAB component in female mixed incontinence - is it as easy as it sounds?</i>
	Yaoguang Zhang - <i>Role of drugs and surgery in the management of DO-DU (detrusor overactivity with detrusor underactivity)?</i>
	Byeong Jo Jeon - <i>Treating OAB in the frail elderly - caveats and approaches</i>
08:05 – 10:30	Plenary session 1: Neuro-urology and research science
Room:	Maritime 1
	Chairs: Eric Chung, Eva Fong, Vincent Tse
08:05 – 08:20	Opening address and Acknowledgment of Country
	Convenors' welcome and 20th anniversary recognition
08:20 – 08:35	Keynote lecture: David Ginsberg - Modern management of neurogenic stress urinary incontinence
08:35 – 09:20	Panel discussion - <i>Neurogenic detrusor overactivity: a multidisciplinary approach</i>
	Chairs: Caroline Dowling, Jang Hwan Kim, Limin Liao
	Van An Nguyen - <i>Augmentation enterocystoplasty</i>
	Johan Gani - <i>Sacral neuromodulation</i>
	Ivy Chan - <i>Assessment and management from paediatric viewpoint</i>
	Karina So - <i>Management from nursing perspective</i>
	Q&A
09:20 - 10:30	Chairs: Jeff Thavaseelan, Yoshiyuki Kojima, Elita Wibisono
09:20 – 09:35	State-of-the-art lecture: Hiroshi Shimura - <i>Recent advances in the brain micturition centre: neuronal imaging, manipulation and translation to clinical practice</i>
09:35 – 09:50	Russell Chess-Williams - <i>Is it all in the mind? Psychological stress and bladder function</i>
09:50 – 10:05	State-of-the-art lecture: Chih-chieh Lin - <i>Concomitant stable Parkinson's disease and BPE-LUTS in a 70-year-old male with urodynamic BOO and detrusor overactivity: approach, management strategies and caveats</i>
10:05 – 10:20	Lewis Chan - <i>The ageing lower urinary tract: what do we need to know to manage storage and voiding dysfunction in the older patient?</i>
10:20 – 10:30	Q & A
10:30 – 11:00	Morning tea with industry
11:00 – 12:50	Plenary session 2: Incontinence and erectile dysfunction following prostate cancer treatment – multidisciplinary
Room:	Maritime 1
	Chairs: Tom Jarvis, Ch'ng Ling Sing, Jianye Wang
11:00 – 11:15	State-of-the-art lecture: Seong Jin Jeong - <i>Radiation effects on lower urinary tract physiology and urodynamic changes and clinical implications</i>
11:15 – 11:30	Eric Chung - <i>Update on the upcoming 8th International Consultation on Incontinence: male stress urinary incontinence surgery</i>
11:30 – 11:50	Jay Simhan - <i>The eroded bulbar AUS cuff: management and troubleshooting in complex cases</i>
11:50 – 12:05	Sean Mungovan - <i>Male continence mechanisms and the role of pelvic floor muscle training in post-prostatectomy incontinence</i>

12:05 – 12:20	Jay Simhan – <i>Penile prosthesis implantation in a severe fibrotic penis: tools and techniques</i>	
12:20 – 12:30	Q&A	
12:30 – 12:50	Multidisciplinary case discussion	
	Chair: Giovanni Losco	
12:50 – 13:50	Lunch with industry	
13:50 – 15:20	Plenary session 3: Female pelvic medicine and reconstructive surgery	
Room:	Maritime 1	
	Chairs: Lewis Chan, Shang-Jen Chang, Eun Sang Yoo	
13:50 – 14:05	State-of-the-art lecture: Eva Fong - <i>The New Zealand female pelvic mesh service: from conception to realisation and results</i>	
14:05 – 14:20	David Ginsberg - <i>The failed mid-urethral sling: what next?</i>	
14:20 – 14:35	Hiroshi Shimura - <i>Uterine preservation prolapse surgery: indications and what does the evidence Say?</i>	
14:35 – 14:50	Rasa Ruseckaite - <i>Development of a new functional PROMs tool for pelvic floor surgery using consumer co-design</i>	
14:50 – 15:05	Michael Suen - <i>Ventral rectopexy: how It is related to the apical and anterior vaginal vompartment and utility of a pelvic floor MDT</i>	
15:05 – 15:20	Q&A	
15:20 – 15:50	Afternoon tea with industry	
15:50 – 16:40	Concurrent sessions	
	Concurrent Session 1A	Concurrent Session 1B
Room:	Maritime 1	Wharf 1, 2 and 3
	Chairs: Chieh-Lung Chou, Takahiko Mitsui, Audrey Wang	Chairs: Dianita Halimah Harahap, Dong Gil Shin
	15:50 Miho Song - <i>The efficacy of minimally invasive implantable wireless electrical stimulation for the treatment of stress urinary incontinence in a rat model</i>	15:50 Han Ji-Yeon - <i>Efficacy and safety of combination therapy with an -blocker and mirabegron 25mg or 50mg in men and women with urodynamically proven detrusor overactivity with impaired contractility</i>
	15:57 Justin Chee - <i>A comparison of optilume and urethroplasty: a single centre experience in Australia</i>	15:55 Arshad Hussain - <i>Effect of patient self-visualisation on procedural pain during cystoscopy: a systematic review and meta-analysis of randomised controlled trials</i>
	16:04 Rizal Rian Dhalas - <i>Can we transform OAB care? The potential of LIESWT as a regenerative therapy for overactive bladder: a new hope for a non-pharmacological approach</i>	16:00 Sangrak Bae - <i>Technology adoption, seasonality, and regional disparities in BPH surgery: a 15-year nationwide epidemiological study of TUR-P and HoLEP in Korea using HIRA claims data (2010–2024)</i>
	16:11 Lingfeng Meng - <i>Optimization of sacral neuromodulation therapy: clinical outcomes and patient suitability exploration of variable frequency mode: a prospective multi-center study</i>	16:05 Sau Loi Ng - <i>A prelim outcome on continence regains on patients with stress urinary incontinence after high-intensity focused electromagnetic technology (HIFEM)</i>
	16:18 Marnique Basto - <i>Robotic artificial urinary sphincter (AUS) in complex female SUl:initial experience in Australia and New Zealand</i>	16:10 Chun-Yuan Zhu - <i>Unveiling detrusor underactivity in women with dysfunctional voiding: symptom patterns and videourodynamic correlates</i>
	16:25 Yuki Kyoda - <i>Five-year real-world treatment trajectories after initial diagnosis of benign prostatic hyperplasia: a multicenter prospective study</i>	16:15 Karamveer Nagi - <i>Safety and efficacy of optilume in female urethral strictures</i>
	16:32 Ho Young Bae - <i>Transrectal ultrasound-based prostatic urethral angle as an independent predictor of overactive bladder symptoms in men with benign prostatic hyperplasia</i>	

16:39 Li Ho - *Efficacy of the Pelvic Clock® device on functional recovery after robotic-assisted radical prostatectomy: A randomized controlled trial*

16:20 Timothy Lu - *The Singapore General Hospital initial experience with robotic assisted total extraperitoneal (TEP) bladder neck reconstruction*

16:25 Muhd Zaki Azre Bin Redzuans - *One injection enough? Simplifying intravesical botulinum toxin in neurogenic bladder*

16:30 Misuzu Noda - *Rat accessory nerve directly regulates bladder contraction*

16:35 Shiraz Firdaus Saifulbahri - *Renal function outcomes after urinary conduit diversion: a 5-year retrospective cohort study at a tertiary referral centre in Malaysia*

16:40 U Phun Loo - *Single-centre experience in the management of ketamine-associated cystitis: urodynamic findings and outcomes of intravesical botulinum toxin injection*

16:40 – 17:40		Concurrent Session 2A	Concurrent Session 2B
Room:	Maritime 1		Wharf 1, 2 and 3
	Chairs: Loo U-Phun, Henry Yao, Yaoguang Zhang		Chairs: En Meng, Noritoshi Sekido, Kexin Xu
	16:46 Rasa Ruseckaite - <i>Postoperative health-related quality of life in patients undergoing primary surgery for stress urinary incontinence</i>		16:45 Lingfeng Meng - <i>An investigation into the relationship between program control frequency and satisfaction assessment subsequent to sacral neuromodulation, devising an optimal selection of programming control mode for patients</i>
	16:53 Jen-Hao Kuo - <i>Development and internal validation of a TRUS-based nomogram for predicting bladder outlet obstruction in men with lower urinary tract symptoms</i>		16:50 Ying Zheng Chen - <i>Mirabegron combined with tadalafil improves urinary continence and erectile function recovery after robot-assisted radical prostatectomy: A retrospective cohort study</i>
	17:00 Meng Ling-Feng - <i>Sex differences and regional distribution of urine continence researchers in China</i>		16:55 Gulati Parth - <i>Systematic review of fetal megacystis: childhood and beyond</i>
	17:07 Natsuki Uemura - <i>Common iliac artery calcification volume predicts postoperative urinary function after robot-assisted radical prostatectomy</i>		17:00 Minnie Chen - <i>Effects of castration on nocturnal polyuria and lower urinary tract symptoms in patients with prostate cancer</i>
	17:14 Takahiro Shimizu (Japan) - <i>Effects of chronic cernilton administration on prostatic hyperplasia in spontaneously hypertensive rats</i>		17:05 I Hsiang Tseng - <i>Comparative analysis of virulence characteristics in Escherichia coli between asymptomatic bacteriuria in neurogenic bladder and symptomatic UTI in the general population</i>
	17:21 Yonatan Adineta - <i>Low-intensity extracorporeal shockwave therapy for erectile dysfunction: effects on ejaculatory and erectile function</i>		17:10 Tamaki Hagita - <i>Hagita Role of umbrella cells in micturition and their regenerative time course</i>
	17:26 Yonatan Adinata (Indonesia) - <i>Transcutaneous tibial nerve stimulation for male overactive bladder: efficacy and feasibility in a clinical study</i>		17:15 Hong Wook Kim - <i>Single-port robot-assisted extraperitoneal transvesical ureteral reimplantation in adults: a short-term follow-up study</i>
	17:33 Anaamika Menon - <i>Mesh perspectives: a qualitative study of women's experiences after revision pelvic reconstructive surgery</i>		17:20 Hotaka Mitsui - <i>Intravesical dimethyl sulfoxide treatment improves erectile function amongst men with Hunner-type interstitial cystitis</i>
	17:38 Wilson Chan - <i>topic to be confirmed.</i>		17:25 Ghassan Barayan - <i>Urologist preferred interventions for benign prostatic hyperplasia in Saudi Arabia</i>
	17:43 Hussain Ashard - <i>Mirabegron and intradetrusor onabotulinumtoxinA for overactive bladder in Parkinson's disease: a systematic review and meta-analysis</i>		

17:30 Yin Chien Ou - *Bladder wall injection of high-molecular-weight hyaluronic acid alleviates bladder inflammation and central sensitization in a cyclophosphamide-induced interstitial cystitis/bladder pain syndrome model*

17:35 Damien Deng - *Does MRI eligibility drive adoption? The impact of MRI eligibility on sacral neuromodulation use*

17:45 – 18:30	Plenary session 4: Men's health and male LUTS
Room:	Maritime 1
	Chairs: Jae Hyun Bae, Muhammad Anwar Irzan
17:45 – 18:00	State-of-the-art lecture: Warren Lo Hwa Loon - <i>Testosterone replacement therapy in 2026: indications and evidence</i>
18:00 – 18:30	Panel discussion and hypotheticals Chair: Eric Chung Panelist: Henry Woo, Giovanni Losco, John Kim, Naoya Masumori, Chun-Hou Liao and Jin Yong. <i>MIST for BPH: Choosing the right tool for your patients</i>
19:30 – 22:30	Conference dinner
	Venue to be confirmed Open to all delegates

Sunday 14 June 2026

08:30 – 09:45	Plenary Session 5: Modern Concepts in Functional and Reconstructive Urology
Room:	Maritime 1
	Chairs: Tanya Ha, Yoshiyuki Kojima, Kexin Xu
08:30 – 08:45	Elizabeth Dally - <i>Transitional care: paediatric to adult neuro-urology</i>
08:45 – 09:00	State-of-the-art lecture: Limin Liao - <i>Male sling surgery: what does the evidence say in 2026?</i>
09:00 – 09:15	Jay Simhan - <i>Revitalising urotrauma education: elevating our value in GU practice</i>
09:15 – 09:30	Su Jin Kim - <i>Recurrent UTI in women: role of microbiome, vaccines, and the future</i>
09:30 – 09:45	State-of-the-art lecture: Andika Afriansyah - <i>The future of urodynamics in the AI era</i>
09:45 – 10:00	Koenraad van Renterghem - <i>Complex Peyronie's disease - Tips on surgical reconstructions</i>
10:00 – 10:15	Q&A discussion
10:15 – 10:45	Morning Tea with Industry
10:45 – 12:30	Plenary Session 6: Complicated Situations in Functional and Reconstructive Urology
Room:	Maritime 1
	Chairs: Sandra Elmer, Warren Lo Hwa Loon, Chunhao Liao
10:45 – 11:00	David Ginsberg - <i>The neurogenic LUT dysfunction patient who cannot CISC: what else can be done?</i>
11:15 – 11:15	Eva Fong - <i>Complete TVT and TOT sling removal surgery: techniques and outcomes</i>
11:15 – 11:30	Ashani Couchman - <i>The Australasian Pelvic Floor Procedure Registry (APFPR) - inception, utility and future</i>
11:30 – 11:40	Q&A
11:40 – 11:55	Jay Simhan - <i>Managing the challenge of post-radiation bladder neck and proximal urethral stenoses</i>
11:55 – 12:10	Anita Clarke - <i>The hostile abdomen with multiple scars: how do I approach it?</i>
12:10 – 12:25	Jin Yong - <i>Bladder diverticulum - When to intervene and the role of urodynamics</i>
12:25 – 12:35	Q&A discussion
12:35 – 12:42	Amanda Chung - <i>Use of a wearable microneedle percutaneous neuromodulation system for the management of overactive bladder: early results of a pilot randomized controlled trial</i>
12:42 – 12:49	Kexin Xu - <i>Computational fluid dynamics study on the impact of benign prostatic hyperplasia surgery on urine flow in the prostatic fossa</i>
12:49 – 12:54	Gabriel Kong - <i>Functional outcomes and urodynamic profile following complex lower urinary tract reconstruction: a 5-year experience at Malaysia's largest tertiary centre</i>
12:54 – 12:59	Yu-Hsiu Huang - <i>Clinical utility of intravesical prostatic protrusion and prostatic urethral angle for predicting prostatic obstruction in men with small prostate volume</i>
13:00 – 14:00	Lunch with Industry - Foyer
14:00 – 16:15	Plenary Session 7: Nocturia, Ethics, and Nightmares
Room:	Maritime 1
	Chairs: Maulidina Medika Rahmita, Sung Tae Cho, Vincent Tse
14:00 – 14:15	Wendy Bower - <i>Why nocturia is NOT just about waking up once a night to pee?</i>
14:15 – 14:30	David Ginsberg - <i>The cancer is gone, but the bladder remains: what next?</i>
14:40 – 15:00	Debate: <i>Should AI be used in research publication preparation and review?</i> Samuel Tan vs Ada Ng
15:10 – 15:50	<i>Nightmares in functional and reconstructive urology</i> Sandra Elmer - <i>Should we still use mesh in female surgery?</i> Dominic Lee - <i>Ileal neobladder incontinence post-radical cystectomy in men: what can be done?</i> Q&A

15:50 – 16:10	Crossfire Finale - <i>A healthy 65 yr old with a difficult to stabilize 2cm recurrent bulbar urethral stenosis and severe sphincter deficiency post-radical prostatectomy incontinence: is it necessary to stabilize the stenosis prior to continence surgery with sling or AUS?</i> YES - Tom Jarvis NO - Janelle Brennan
16:15 – 16:30	Closing ceremony - Announcement of PPCCS 2027 by the Japanese Continence Society (JCS)
16:30	Conference close
