

BOARD OF UROLOGY IN-TRAINING ASSESSMENT FORM SET2 → SET5 TRAINEE

TRAINEE INFORMATION

Name:							
			SET2		SET3	SET4	SET5
Assessment Period: Q1	Q2	Q3	Q4		Clinical Yea	r:	
No. Days Absent: Annual Leav	ve	Exam		Sick	Study		Other

HOSPITAL INFORMATION

Hospital Name:

No. of Consultants:

- Only 1 form should be used to record the assessment.
- The Training Supervisor must complete the report following discussion with other consultants in the Unit.

Training Supervisor:

Names of all consultants who contributed to this assessment (to be completed by the Training Supervisor)

DECLARATION BY TRAINING SUPERVISOR

I verify that this assessment report has been completed following discussion with the abovementioned consultants and that the assessment and logbook data have been discussed with the trainee.

Name:	Signature:		Date:
DECLARATION BY TRAINEE (These statement	nts <u>must</u> be answered p	rior to submissio	on)
I have sighted the assessment on this form		Yes	No
I have discussed the assessment with my Train	ing Supervisor	Yes	No
I have emailed the assessment to the abovement	entioned consultants	Yes	No
I agree with the assessment on this form		Yes	No
Name:	Signature:		Date:

SECTION 1 - to be completed **<u>BEFORE</u>** Assessment Meeting

With the exception of CLEAR, all parts of this section refer to THIS YEAR ONLY.

COURSES OR EXAMS COMPLETED THIS YEAR

CLEAR SSE (Urology) Fellowship Exam

COMPULSORY MEETINGS ATTENDED THIS YEAR

USANZ ASM Section Meeting USANZ Trainee Week

OTHER WORKSHOPS CONFERENCES OR MEETINGS ATTENDED - TECHNICAL SKILLS (medical knowledge, surgical skills, etc.)

OTHER WORKSHOPS CONFERENCES OR MEETINGS ATTENDED - NON-TECHNICAL SKILLS (Teamwork, Communication, Leadership, Management, etc.)

PRESENTATIONS GIVEN (within Unit)

PRESENTATIONS GIVEN (outside hospital network)

RESEARCH (include all commenced, completed, or contributed to)

TEACHING RESPONSIBILITIES - Details of any teaching you provided to medical students, nurses, junior doctors, or allied health professionals.

List any mini-CEXs you have undertaken with one of your trainers this assessment period.

List any DOPS you have undertaken with one of your trainers this assessment period.

SECTION 2 - TO BE COMPLETED BY TRAINING SUPERVISOR

KNOWLEDGE, SKILLS AND APPLICATION (Medical Knowledge)

It is intended here to provide an assessment of the trainee's clinical and theoretical urological knowledge, their efforts to improve knowledge during the term, and their ability to apply their knowledge appropriately in the clinical setting.

EXPLANATION OF RATINGS					
М	MET expectations; performed in a manner expected for SET level				
JB	Just below expectations; repeated mild deficiency, and need for some improvement				
SB	Significantly below expectations; needs immediate and substantial remedial attention.				

Rate	trainee's performance regarding the following:	Μ	JB	SB
1.	Demonstrated appropriate clinical and practical urological knowledge.			
2.	Demonstrated appropriate theoretical book and journal knowledge.			
3.	Demonstrated appropriate and discriminate application of newly learnt knowledge to the clinical setting.			
4.	Followed a reading program.			

Μ

JB

KNOWLEDGE, SKILLS AND APPLICATION (Judgement)

It is intended the following provides an assessment of this trainee's interpretation of clinical situations, their use and interpretation of investigations, and the application of their knowledge to individual cases.

EXPLANATION OF RATINGS

- MET expectations; performed in a manner expected for SET level
- Just below expectations; repeated mild deficiency, and need for some improvement
- **SB** Significantly below expectations; needs immediate and substantial remedial attention.

Rate	trainee's performance regarding the following:	Μ	JB	SB
1.	Accurately elicited and interpreted symptoms and signs and treated or investigated appropriately.			
2.	Delivery of case presentations , particularly in hand-over or when getting advice by telephone – presentations were succinct and inclusive of all relevant information, with the important issues highlighted.			
3.	Able to make independent clinical assessments and decisions.			
4.	Clinical judgement – able to accurately assess the clinical condition of patients, recognise complications early, and know when treatment was urgent.			
5.	Able to select and interpret common urological investigations.			

Μ

KNOWLEDGE, SKILLS AND APPLICATION (Surgical Skill)

It is intended the following provides an assessment of the trainee's potential to learn the skills to perform safe surgery, and show an awareness of the responsibility a surgeon has to self, patients, and others

EXPLANATION OF RATINGS

- MET expectations; performed in a manner expected for SET level
- **JB Just below** expectations; repeated mild deficiency, and need for some improvement
- **SB** Significantly below expectations; needs immediate and substantial remedial attention.

Rate	trainee's performance regarding the following:	Μ	JB	SB
1.	Preparation for procedures – met patients beforehand, had all results available, and pre-read or reviewed surgical techniques before attempting them.			
2.	Surgical technique was measured, logical, showing purpose and progress in actions performed.			
3.	Manipulative skills and dexterity were appropriate and developing at the expected rate.			
4.	Handling of tissues was careful, and appropriate for the situation.			
5.	Knowledge of surgical anatomy , anatomical relations, and their approach to safe dissection.			
6.	Surgical assistant ability – was able to anticipate the surgeon's needs, provide exposure, and assist.			
7.	Listened to and followed intra-operative instruction and advice.			
8.	Diligently followed the clinical progress and outcomes of the operations they performed.			

SUMMARY OF UROLOGICAL PROCEDURES AND EXPECTED COMPETENCE

KEY TO RATINGS

- 1 Limited experience at this stage, acquiring introductory skills
- 2 Consistently undertaking aspects of the procedure
- 3 Fluent with principles but at this stage unable to complete independently
- 4 Able to perform straightforward cases but requires assistance with the difficult or complex
- 5 Able to perform independently and competently
- N/A Unable to assess due to lack of exposure during this term

Trainees must enter the number of each procedure undertaken during the quarter in the first column <u>before</u> giving report to their supervisor	No of Procedures	1	2	3	4	5	N/A
Simple lower urinary tract endoscopy (biopsy, stent, etc.)							
Complex lower urinary tract endoscopy [TUR(BT), difficult litholopaxy, etc.]							
TURP/other surgical BPH Rx - basic aspects							
TURP/other surgical BPH Rx - advanced aspects							
Ureteroscopy - basic aspects							
Ureteroscopy – complex (including use of laser)							
Percutaneous access to the kidney							
Percutaneous renal surgery - advanced (e.g. nephroscopy, orientation, biopsy or stone treatment)							
Inguinal-scrotal/penile surgery							
Open renal surgery – exposure, mobilisation and closure							
Open renal surgery – vascular and complex dissection							
Open abdomino-pelvic surgery – basic including exposure and dissection of the bladder							
Open abdomino-pelvic surgery - intermediate including cystectomy & lymphadenectomy							
Open abdomino-pelvic surgery – advanced including fistula, trauma & neo-bladder							
Continence surgery – vaginal dissections etc.							
Continence surgery – minimally invasive including slings, injections & botox							
Radical prostatectomy basic exposure							
Radical prostatectomy - advanced (dissection and reconstruction)							
Laparoscopy - basic (positioning, port placement, orientation, etc.)							
Laparoscopy - intermediate (renal cyst, simple nephrectomy or total nephrectomy for small tumour)							
Laparoscopy - advanced (complex dissection, mobilisation, resection, suturing, etc.)							
Trans-rectal ultrasound and biopsy prostate							
Video Urodynamics							
Flexible Cystoscopy							

PROFESSIONALISM

Professionalism includes such issues as conduct, presentation, respecting confidentiality, and maintaining open disclosure, as well as learning ethical principles, always acting within personal capabilities, accepting responsibility for own actions, and continually striving for self-improvement.

EXPLANATION OF RATINGS

<u>MET expectations; performed in a manner expected for SET level</u> Just below expectations; repeated mild deficiency, and need for some improvement Significantly below expectations; needs immediate and substantial remedial attention.

Rate	trainee's performance regarding the following:	Μ	JB	SB
1.	Reliably worked within their capability and asked for advice or help when needed.			
2.	Well organised , efficient, and was readily contactable.			
3.	Consistently accepted the responsibility for the outcomes of their actions.			
4.	Arrived on time , was well presented and prepared, and reliably completed tasks.			
5.	Obtained informed consent by open disclosure and presented a balanced view to the patient.			
6.	Behaved reasonably in times of stress, frustration, or conflict.			
7.	Reacted appropriately to feedback or criticism. Constructively used the			
	information to gauge themselves and improve. Did not rebut or challenge the content.			

COLLABORATION

A team structure is needed to provide quality health care, and each team member must respect others and be cooperative. The contributions of all team members must be valued. Opinions of medical, nursing, and allied health colleagues may help you form your opinions in this assessment.

EXPLANATION OF RATINGS

<u>MET expectations; performed in a manner expected for SET level</u> Just below expectations; repeated mild deficiency, and need for some improvement Significantly below expectations; needs immediate and substantial remedial attention.

Rate	trainee's performance regarding the following:	Μ	JB	SB
1.	Treated juniors and non-medical staff in the same manner they treated peers or seniors.			
2.	Considered peers when organising leave, rosters, cover, clinical, and administrative Unit duties.			
3.	Performance in the clinical team . Made a positive and constructive contribution and gave credit where it was due.			
4.	Dealings with other disciplines – asked and provided consults and respected their value and perspective. This includes interactions with other departments (e.g. Medical, ED, ICU)			

MANAGEMENT AND LEADERSHIP

In their role as senior clinicians, surgeons are required to provide leadership, provide advice on the need for, and distribution of health care resources, and be a role model and mentor to junior doctors and other health care professionals. Junior Trainees should be starting to understand these concepts.

EXPLANATION OF RATINGS

<u>MET expectations; performed in a manner expected for SET level</u> Just below expectations; repeated mild deficiency, and need for some improvement Significantly below expectations; needs immediate and substantial remedial attention.

Rate	e trainee's performance regarding the following:	Μ	JB	SB
1.	Performance as a mentor, role model, and advisor to junior staff.			
2.	Quality and timeliness of medical records (operation reports, letters, and inpatient notes).			
3.	Commitment to complete the essential non-clinical (organisational, administrative) tasks of the Unit.			
4.	Aware that economic factors can be important when organising or recommending patient care.			

HEALTH ADVOCACY

A doctor must be aware of the factors that affect the health of our community, how a patient's personal beliefs may influence their treatment choice, how allocating funds to one area of health care can reduce the resources available for other areas, and how the personal health of a doctor can affect the quality of the health care he or she provides.

EXPLANATION OF RATINGS

<u>MET expectations; performed in a manner expected for SET level</u> Just below expectations; repeated mild deficiency, and need for some improvement Significantly below expectations; needs immediate and substantial remedial attention.

Rate	trainee's performance:	Μ	JB	SB
1.	Aware of only working when physically or mentally able.			
2.	Recognised the impact of overly long work periods and complied with safe work hours and practice.			
3.	Showed cultural competence (knowledge, skills, attitudes) when dealing with diversity & incorporates cultural factors when negotiating patient focused care.			
4.	Employed, or helped improve, existing Unit protocols because they understood consistent protocols are important for patient safety.			
5.	Aware of risk factors for illness and contributed to patient education and disease prevention.			

COMMUNICATION

A doctor must develop positive relationships with others, respecting confidentiality and autonomy. Efforts must be made to adjust the manner and language of communication to suit the needs of each individual, and their manner must encourage questioning.

EXPLANATION OF RATINGS

<u>MET expectations; performed in a manner expected for SET level</u> Just below expectations; repeated mild deficiency, and need for some improvement Significantly below expectations; needs immediate and substantial remedial attention.

Rate trainee's performance:	Μ	JB	SB
1. Communication with patients and their relatives. Pitched their language to the level			
of each patient so they were understood and was open to questions.			
2. Communication with work colleagues. Pitched their communication appropriately so			
they were understood and was open to constructive dialogue.			
3. General reputation for accessibility, attitude, cooperation, and communication within			
the workplace.			
4. Responded appropriately when challenged with criticism, doubts, persistent			
questioning, or even frank aggression.			

SCHOLAR AND TEACHER

A surgeon is expected to be keen to learn, to know how to access and interpret information, and be committed to teach others and improve their own teaching skills.

EXPLANATION OF RATINGS

MET expectations; performed in a manner expected for SET level Just below expectations; repeated mild deficiency, and need for some improvement Significantly below expectations; needs immediate and substantial remedial attention.

Rate trainee's performance:		Μ	JB	SB
1.	When a gap was found in knowledge , promptly read the topic, and knew the answer next time.			
2.	Attendance at teaching sessions - preparation, participation, and understanding in sessions.			
3.	Readiness to teach others (undergraduates, junior staff, nurses, etc.), and the quality of their teaching.			
4.	Understanding of new research , and their ability to critically appraise the conclusions and applicability.			
5.	Contribution to research during this term.			

This section is to be completed for trainees in SET3 and above (pre-exam) Please document the trainee's current state of preparation for the Fellowship Examination

OVERALL ASSESSMENT

Has the trainee been rated 'just below' or 'significantly below' in any areas?	Yes	No
If yes, have these areas been discussed with the trainee?	Yes	No

Please provide further information on the areas rated 'just below' or 'significantly below' (if insufficient space please attach separate page)

Note: Details of 'just below', 'significantly below' performance must be fully documented and attached to this assessment form, in addition to copies of minutes or notes from discussions, meetings or counselling sessions for performance related issues.

Please determine whether the trainee has gained the <u>skills and competencies expected</u> to be acquired during this term and provide a rating of their overall performance:

Satisfactory

Unsatisfactory

Borderline (includes slow to progress)

- Satisfactory must not be ticked if there is doubt.
- If there are doubts, consider **Borderline**. It means that the trainee has not performed to the satisfaction of the unit in some areas. <u>The specific issues will need to be outlined and discussed with the trainee</u>, as well as, at the Regional Training Committee meeting that follows. Two Borderline assessments can lead to Probation and/or Extension of training, or other remedial measures.
- Details of overall **Unsatisfactory** performance must be fully documented and attached to this assessment form, in addition to copies of minutes or notes from discussions, meetings or counselling sessions for performance related issues.

Provide any general comments, or recommendations regarding this trainee, and their progress in training.

PROBATIONARY STATUS/REMEDIAL TRAINING

Is the trainee currently on Probation?	Yes	No	
Is the trainee currently on Extension?	Yes	No	
Was a remedial training plan required following the last assessment report? If yes, attach copy of plan	Yes	No	
Has there been significant improvement as a result of remediation?	Yes	No	N/A
