

## 30 Jul 2025 (Lectures Day 1)

8.30-10.00	Prostate cancer	
8.30-8.50	Current updates in PSA screening and prostate cancer diagnosis	Lecture
8.50-9.10	Overview of radiotherapy options for prostate cancer	Lecture
9.10-9.30	Radical prostatectomy and complications	Lecture
9.30-9.50	Current landscape in management of metastatic prostate cancer	Lecture
9.50-10.00	QnA	
10.00-10.30	Coffee Break	
10.30-12.00	Andrology	
10.30-10.35	BPH pathophysiology	Microteaching
10.35-10.40	BPH clinical presentation	Microteaching
10.40-10.45	Landmark papers in BPH	Microteaching
10.45-11.05	BPH – MIST	Lecture
11.05-11.15	QnA	
11.15-11.20	Varicocele and surgical options	Microteaching
11.20-11.25	Peyronie's disease: Pathophysiology and diagnosis	Microteaching
11.25-11.30	Non-surgical management of ED	Microteaching
11.30-11.50	Surgical management of Erectile Dysfunction and Peyronie's disease	Lecture
11.50-12.00	QnA	
12.00-13.00	Lunch	
13.00-14.00	Urolithiasis	
13.00-13.05	Metabolic evaluation of urolithiasis: how to interpret 24hr urine collection	Microteaching
13.05-13.10	Medical therapy for urolithiasis: MET and Dissolution therapy	Microteaching
13.10-13.20	History and principles of ESWL	Microteaching
13.20-13.30	Lasers in Urology	Microteaching
13.30-13.35	RIRS: dusting vs fragmentation	Microteaching
13.35-13.40	Reducing risk of complications in RIRS	Microteaching
13.40-13.45	PCNL: positioning	Microteaching
13.45-13.50	PCNL: principles of puncture	Microteaching
13.50-14.00	QnA	
14.00-17.00	Break-out session	
	<p>Participants will be divided into 6 groups to rotate to 6 stations Each station will be 30mins long</p> <p>Station 1 – UDS/VUDS case study Station 2 – Male subfertility (VIVA exam practice) Station 3 – Stones (VIVA exam practice) Station 4 – Prostate cancer (VIVA exam practice) Station 5 – Hugo RAS 1 Station 6 – Hugo RAS 2</p>	

## 31 Jul 2025 (Lectures Day 2)

8.30-11.15	Functional and Reconstructive Urology, Transplant, Paediatric Urology	
8.30-8.35	Physiology of micturition	Microteaching
8.35-8.40	Autonomic dysreflexia	Microteaching
8.40-8.45	OAB – history taking	Microteaching
8.45-9.05	OAB/Nocturnal polyuria – diagnosis and management	Lecture
9.05-9.25	Painful Bladder Syndrome	Lecture
9.25-9.40	QnA	
9.40-10.00	Coffee Break	
10.00-10.20	Urethral strictures	Lecture
10.20-10.40	Principles of renal transplant and complications	Lecture
10.40-11.00	Paeds Urology OSCE	Lecture
11.00-11.15	QnA	
11.15-12.30	Penile and Testicular Cancer	
11.15-11.20	Premalignant conditions and risk factors for penile Ca	Microteaching
11.20-11.25	Surgical management of penile Ca	Microteaching
11.25-11.45	Management of inguinal lymph nodes in penile cancer including SLNB	Lecture
11.45-11.50	Risk factors for testicular Ca	Microteaching
11.50-11.55	Staging of testicular Ca	Microteaching
11.55-12.00	Management of Stage I Germ cell tumours	Microteaching
12.00-12.05	Chemotherapy in Germ cell tumours	Microteaching
12.05-12.10	Principles of RPLND	Microteaching
12.10-12.30	QnA	
12.30-13.30	Lunch	
13.30-16.15	Urothelial and Renal Carcinoma	
13.30-13.50	Approach to management of NMIBC	Lecture
13.50-14.10	Management of BCG failure	Lecture
14.10-14.30	Bladder preserving strategies in localized MIBC	Lecture
14.30-14.50	Management of UTUC	Lecture
14.50-15.10	Updates on percutaneous biopsy and ablation of SRM	Lecture
15.10-15.30	Updates on surgical management of SRM	Lecture
15.30-16.00	Management of Advanced RCC including adjuvant therapy	Lecture
16.00-16.15	QnA	
16.15-17.00	Uroradiology	
16.15-16.20	MRI in Urology	Microteaching
16.20-16.25	PET Scans	Microteaching
16.25-16.30	Use of CT/DECT	Microteaching
16.30-16.35	Fundamentals of XR and radiation safety	Microteaching
16.35-16.40	Renal nuclear scans in Urology	Microteaching
16.40-16.45	Fundamentals of US technology including CEUS	Microteaching
16.45-17.00	QnA	

1 Aug 2025  
@SKH 8.30-14.00

8.30-10.00	Instrument workshop	
8.30-8.45	Endoscopes (rigid cysto/TURP/semi-rigid/fURS)	Microteaching
8.45-9.00	Accessories (wires/access sheath, baskets, etc)	Microteaching
9.00-9.15	Energy devices and hemostatics	Microteaching
9.15-9.45	QnA and Hands-on with instrument	
9.45-10.00	Break	
10.00-14.00	Hands-on for reconstructive urology* (limited seats) Endourology (PCNL, RIRS) Laparoscopic station Prostate station (BPH/biopsy) Other stations (implants/hemostatics, etc)  *using porcine organs
