

# 5TH USANZ FUNCTIONAL UROLOGY SYMPOSIUM AND THE 20TH PAN-PACIFIC CONTINENCE SOCIETY ANNUAL MEETING

## Program disclaimer

Program details including session content, speakers, times, rooms, and social events are subject to change. The organising committee reserves the right to make necessary amendments due to academic, logistical, or unforeseen circumstances.

## Friday 12 June 2026

11:00 – 12:30	PPCS business meeting (by invitation)	
Room:	Wharf 4	
13:00 – 14:30	<b>Pre-conference workshops</b>	<b>Pre-conference workshops</b>
	<b>Workshop 1: LUT and Pelvic floor Medicine and Reconstructive Surgery</b>	<b>Workshop 2: Male LUTS BPH: Innovating LUTS management - minimally invasive BPH surgery</b>
Room:	Wharf 1 & 2	Wharf 3 & 4
	Chairs: Eva Fong, Vincent Tse, Korea, Young-Suk Lee (KR) (PPCS)	Chairs: Henry Woo and Giovanni Losco
	Faculty and topics: Sophie Plagakis – <i>Non-Mesh Options for Female SUI</i> Warren Lo (MY) – <i>Robotic Sacrocolpopexy: Tips and Tricks</i> Lewis Chan – <i>Role of Pelvic Floor Ultrasound in Planning Surgery for Mesh Complications</i> Vincent Tse – <i>Female urethroplasty: a step-by-step approach</i> Anthony Kiosoglous: <i>The Martius Fat Pedicled Graft: When Is it Indicated?</i> Ming -Hsuan Ku (TAIWAN) (PPCS): <i>Update on managing Bladder Pain Syndrome in 2026</i> MALAYSIA (PPCS): <i>Topic to be confirmed</i>	The male LUTS/BPH workshop aims to educate the participants on the contemporary understanding of the pathophysiology of male LUTS/BPH and sexual function, and how patients (and clinicians) want a minimally invasive surgical treatment (MIST) in BPH that provides immediate benefits in terms of sustained improvements in urinary function and preservation of underlying sexual function. Recent literature on MIST in BPH will be discussed with emphasis on what is effective, durable, with early return to normal activity (and work), and more importantly, actually preserves sexual function postoperatively.
14:30 – 15:00	Refreshment break	

15:00 – 16:30	Workshop 3: Neuromodulation/OAB/UAB	Workshop 4: Penile prosthesis and reconstruction
Room:	Wharf 1 & 2	Wharf 3 & 4
	Chairs: Ailsa Wilson Edwards, Courtney West	Chairs: Eric Chung, Jay Simhan (US), Koenraad van Renterghem, Shannon Kim
	Faculty and topics: David Ginsberg: <i>Female Functional Outlet Obstruction: How To Diagnose and Treatment Options</i> JAPAN (PPCS): <i>Nocturia Management Update in 2026</i> Amanda Chung: <i>Technical Pearls and Troubleshooting in SNM Implantation</i> Danielle Delaney: <i>Implantable PTNS - Principles and Outcomes</i> Marnique Basto: <i>Detrusor Underactivity - What is the Role of Neuromodulation and Outlet Surgery?</i> Zola Wijayanti (ID) INDONESIA (PPCS): <i>Drugs, Neuromodulation and Botulinum Toxin - Can they be used in combination for Difficult OAB Cases?</i>	This workshop focuses on contemporary understanding and surgical nuances of penile prosthesis implant and artificial urinary sphincter surgery. Pros and cons of inflatable vs malleable penile prosthesis implants and “tips and tricks” will be shared by the experts. Time will be set aside for hypotheticals and “how to get out of trouble situations”.  Sponsored session 
16:30	Workshops conclude	
17:00 – 18:00	Young generation forum and moderated poster session	
Room:	Wharf 1, 2 & 3	
	Chairs: Marnique Basto (USANZ), Samuel Tan (MY), Yu-Chen Chen (Taiwan)	
	Rapid-fire presentations	
17:00	Radika Naufal (Indonesia): <i>Clinical Predictors of Vesicovaginal Fistula Repair Outcomes: A Retrospective Analysis from a Tertiary Referral Center</i>	
17:05	Yuki Kyoda (Japan): <i>Association Between Behavioral Change and Nocturia Improvement: A Multicenter Analysis Using a Self-Check Sheet</i>	
17:10	Speaker to be confirmed	
17:15	Matthew Kwon (Australia): <i>Post-operative retention as a predictor of outcomes following periurethral Bulkamid injection of stress incontinence in females</i>	
17:20	Vu Huy Pham (Vietnam): <i>Update in Outcome on Laparoscopic Pectopexy in Apical Vaginal Prolapse</i>	
17:25	Yonatan Adinata (Indonesia): <i>Extracorporeal shockwave therapy for primary prostate pain syndrome: symptom and quality of life improvement</i>	
17:30	Zhonghan Zhou (China): <i>Grading Vesicoureteral Reflux From VCUG Images Using a General-Purpose Multimodal Large Language Model</i>	
17:35	Speaker to be confirmed	
17:40	Susanna Ahern (Australia): <i>Development of a risk-adjustment model for Stress Urinary Incontinence: a national registry-based study</i>	
17:45	Yu Hsuan Chen (Taiwan): <i>Development of a Point-Based Risk Score for Predicting Urinary Tract Infection After Multichannel Urodynamic Study</i>	
17:50	Sarah Whitty (Australia): <i>Real-world evaluation of the efficacy of the Novoglan device combined with topical corticosteroid cream in the management of adult phimosis: a pilot study</i>	

17:55	Bryce Stewart: <i>Awake versus general anaesthetic intravesical botox injection: results of patient-reported satisfaction</i>
19:00 – 22:30	<b>President's dinner (by invitation)</b>
Room:	Upper Deck, Hyatt Regency Sydney

## Saturday 13 June 2026

<b>07:00 – 08:00</b>	<b>Breakfast symposium</b>
Room:	Wharf 1–3
	Topic: <i>Commonly Seen, Seldom Discussed: Topical Issues in OAB Management 2026</i> Moderators: Tzu-Ping Lin (TAIWAN), USANZ, Saras Serani Sesari (Indonesia) Audrey Wang - <i>Urinary Microbiome and OAB: Is There a Connection?</i> - Muhd Zaki Azre Redzuan (MY) PPCS - <i>How I Tackle the OAB Component in Female Mixed Incontinence - Is It As Easy As It Sounds?</i> CHINA (PPCS) - <i>Role of Drugs and Surgery in the Management of DO-DU (Detrusor Overactivity with Detrusor Underactivity)?</i> Byeong Jo Jeon (KR) (PPCS) - <i>Treating OAB in the Frail Elderly - Caveats and Approaches</i>
<b>08:05 – 10:30</b>	<b>Plenary session 1: Neuro-urology and research science</b>
Room:	Maritime 1
	Chairs: Eric Chung, Eva Fong, Vincent Tse
<b>08:05 – 08:20</b>	<b>Opening address and Acknowledgment of Country</b>
	Convenors' welcome and 20th anniversary recognition
<b>08:20 – 08:35</b>	<b>Keynote lecture – David Ginsberg (US)</b> <b>- Modern management of neurogenic stress urinary incontinence</b>
08:35 – 09:20	Panel discussion – <i>Neurogenic Detrusor Overactivity: A Multidisciplinary Approach</i> Chairs: Caroline Dowling (USANZ), Jang Hwan Kim (KR), Limin Liao (CN) <i>Augmentation enterocystoplasty</i> – Van An Nguyen (VN) <i>Sacral neuromodulation</i> – Johan Gani <i>Assessment and management from Paediatric viewpoint</i> – Ivy Chan (HK) <i>Management from Nursing perspective</i> – Karina So Q&A
09:20 - 10:30	Chairs: Jeff Thavaseelan (USANZ), Elita Wibisono (ID)
09:20 – 09:35	State-of-the-art lecture - Japan: Hiroshi Shimura (JP) - <i>Recent advances in the brain micturition centre: neuronal imaging, manipulation and translation to clinical practice</i>
09:35 – 09:50	Russell Chess-Williams - <i>Is it all in the mind? Psychological stress and bladder function</i>
09:50 – 10:05	State-of-the-art lecture - Taiwan: Speaker to be confirmed - <i>Concomitant stable Parkinson's disease and BPE-LUTS in a 70-year-old male with urodynamic BOO and detrusor overactivity: approach, management strategies and caveats</i>
10:05 – 10:20	Lewis Chan - <i>The ageing lower urinary tract: what do we need to know to manage storage and voiding dysfunction in the older patient?</i>
10:20 – 10:30	Q & A
<b>10:30 – 11:00</b>	<b>Morning tea with industry</b>
<b>11:00 – 12:50</b>	<b>Plenary session 2: Incontinence and erectile dysfunction following prostate cancer treatment – multidisciplinary</b>
Room:	Maritime 1
	Chairs: China, Ch'ng Ling Sing (MALAYSIA), Tom Jarvis (USANZ)
11:00 – 11:15	State-of-the-art lecture – South Korea: <i>Radiation Effects on Lower Urinary Tract Physiology and Urodynamic Changes and Clinical Implications</i>
11:15 – 11:30	Eric Chung (AU) - <i>Update on the upcoming 8th International Consultation on Incontinence: male stress urinary incontinence surgery</i>

11:30 – 11:50	Jay Simhan (US) - <i>The eroded bulbar AUS cuff: management and troubleshooting in complex cases</i>	
11:50 – 12:05	Sean Mungovan - <i>Male continence mechanisms and the role of pelvic floor muscle training in post-prostatectomy incontinence</i>	
12:05 – 12:20	Jay Simhan (US) - <i>Penile prosthesis implantation in a severe fibrotic penis: tools and techniques</i>	
12:20 – 12:30	Q&A	
<b>12:30 – 12:50</b>	<b>Multidisciplinary case discussion</b>	
	Chair: Giovanni Losco	
<b>12:50 – 13:50</b>	<b>Lunch with industry</b>	
<b>13:50 – 15:20</b>	<b>Plenary session 3: Female pelvic medicine and reconstructive surgery</b>	
Room:	Maritime 1	
	Chairs: Lewis Chan (USANZ), Taiwan and Eun Sang Yoo (KR)	
13:50 – 14:05	State-of-the-art lecture - USANZ: Eva Fong (NZ) - <i>The New Zealand female pelvic mesh service: from conception to realisation and results</i>	
14:05 – 14:20	David Ginsberg (US) - <i>The failed mid-urethral sling: what next?</i>	
14:20 – 14:35	JAPAN (PPCS) - <i>Uterine Preservation Prolapse Surgery: Indications and What does the Evidence Say?</i>	
14:35 – 14:50	Rasa Ruseckaite - <i>Development of a new functional PROMs tool for pelvic floor surgery using consumer co-design</i>	
14:50 – 15:05	Michael Suen - <i>Ventral Rectopexy: How It is related to the Apical and Anterior Vaginal Compartment and Utility of a Pelvic Floor MDT</i>	
15:05 – 15:20	Q&A	
<b>15:20 – 15:50</b>	<b>Afternoon tea with industry</b>	
15:50 – 16:40	<b>Concurrent sessions</b>	
	<b>Concurrent Session 1A</b>	<b>Concurrent Session 1B</b>
Room:	Maritime 1	Wharf 1, 2 and 3
	Chairs: Audrey Wang (USANZ), Japan and Chieh-Lung Chou (TAIWAN)	Chairs: Dong Gil Shin (KR), Dianita Halimah Harahap (ID)
	15:50 Miho Song (Korea) - <i>The Efficacy of Minimally Invasive Implantable Wireless Electrical Stimulation for the Treatment of Stress Urinary Incontinence in a rat model</i>	15:50 - Han Ji-Yeon (Korea) - <i>Efficacy and Safety of Combination Therapy with an -Blocker and Mirabegron 25mg or 50mg in Men and Women with Urodynamically Proven Detrusor Overactivity with Impaired Contractility</i>
	15:57 Justin Chee (USANZ) - <i>A Comparison of Optilume and Urethroplasty: A Single Centre Experience in Australia</i>	15:55 Arshad Hussain (Malaysia) - <i>Effect of patient self-visualisation on procedural pain during cystoscopy: a systematic review and meta-analysis of randomised controlled trials</i>
	16:04 Rizal Rian Dhalas (Indonesia) - <i>Can We Transform OAB Care? The Potential of LIESWT as a Regenerative Therapy for Overactive Bladder: A New Hope for a Non-Pharmacological Approach</i>	16:00 Sangrak Bae (Korea) - <i>Technology Adoption, Seasonality, and Regional Disparities in BPH Surgery: A 15-Year Nationwide Epidemiological Study of TUR-P and HoLEP in Korea Using HIRA Claims Data (2010–2024)</i>
	16:11 Lingfeng Meng (China) - <i>Optimization of Sacral Neuromodulation Therapy: Clinical Outcomes and Patient Suitability Exploration of Variable Frequency Mode: A prospective multi-center study</i>	16:05 Sau Loi Ng (Hong Kong) - <i>A prelim outcome on continence regains on patients with stress urinary incontinence after High-intensity Focused Electromagnetic technology (HIFEM)</i>
	16:18 Marnique BASTO (USANZ) - <i>Robotic Artificial Urinary Sphincter (AUS) in Complex Female SU: Initial experience in Australia and New Zealand</i>	16:10 Chun-Yuan Zhu (Taiwan) - <i>Unveiling Detrusor Underactivity in Women with Dysfunctional Voiding: Symptom Patterns and Videourodynamic Correlates</i>
	16:25 Yuki Kyoda (Japan) - <i>Five-Year Real-World Treatment Trajectories After Initial Diagnosis of Benign Prostatic Hyperplasia: A Multicenter Prospective Study</i>	16:15 Karamveer Nagi (USANZ) <i>Safety and Efficacy of Optilume in Female Urethral Strictures</i>

16:32 Ho Young Bae (Korea) - <i>Transrectal Ultrasound-Based Prostatic Urethral Angle as an Independent Predictor of Overactive Bladder Symptoms in Men with Benign Prostatic Hyperplasia</i>	16:20 Timothy Lu (Singapore) - <i>The Singapore General Hospital initial experience with Robotic assisted Total Extraperitoneal (TEP) Bladder Neck Reconstruction</i>
16:39 Li Ho (Taiwan) - <i>Efficacy of the Pelvic Clock® device on functional recovery after robotic-assisted radical prostatectomy: A randomized controlled trial</i>	16:25 Muhd Zaki Azre Bin Redzuanls - <i>One Injection Enough? Simplifying Intravesical Botulinum Toxin in Neurogenic Bladder</i>

16:30 Misuzu Noda (Japan) - <i>Rat accessory nerve directly regulates bladder contraction</i>
16:35 Shiraz Firdaus Saifulbahri (Malaysia) - <i>Renal function outcomes after urinary conduit diversion: a 5-year retrospective cohort study at a tertiary referral centre in Malaysia</i>
16:40 U Phun Loo (Malaysia) - <i>Single-centre experience in the management of ketamine-associated cystitis: urodynamic findings and outcomes of intravesical botulinum toxin injection</i>

16:40 – 17:40	Concurrent Session 2A	Concurrent Session 2B
---------------	-----------------------	-----------------------

Room:	Maritime 1	Wharf 1, 2 and 3
	Chairs: Henry Yao (USANZ), Malaysia and China	Chairs: China, En Meng (TAIWAN) and Japan
	16:46 Yonatan Adinata (Indonesia) - <i>Transcutaneous tibial nerve stimulation for male overactive bladder: efficacy and feasibility in a clinical study</i>	16:45 Lingfeng Meng (China) - <i>An investigation into the relationship between program control frequency and satisfaction assessment subsequent to sacral neuromodulation, devising an optimal selection of programming control mode for patients</i>
	16:53 Jen-Hao Kuo (Taiwan) - <i>Development and Internal Validation of a TRUS-Based Nomogram for Predicting Bladder Outlet Obstruction in Men with Lower Urinary Tract Symptoms</i>	16:50 Ying Zheng Chen (Taiwan) - <i>Mirabegron combined with tadalafil improves urinary continence and erectile function recovery after robot-assisted radical prostatectomy: A retrospective cohort study</i>
	17:00 Meng Ling-Feng (China) - <i>Sex differences and regional distribution of urine continence researchers in China</i>	16:55 Gulati Parth (Australia) - <i>Systematic Review of Fetal Megacystis: Childhood and Beyond</i>
	17:07 Natsuki Uemura (Japan) - <i>Common Iliac Artery Calcification Volume Predicts Postoperative Urinary Function After Robot-Assisted Radical Prostatectomy</i>	17:00 Minnie Chen (Taiwan) - <i>Effects of Castration on Nocturnal Polyuria and Lower Urinary Tract Symptoms in Patients with Prostate Cancer</i>
	17:14 Takahiro Shimizu (Japan) - <i>Effects of chronic cernilton administration on prostatic hyperplasia in spontaneously hypertensive rats</i>	17:05 I Hsiang Tseng (Taiwan) - <i>Comparative analysis of virulence characteristics in Escherichia coli between asymptomatic bacteriuria in neurogenic bladder and symptomatic UTI in the general population</i>
	17:21 Yonatan Adinita - <i>Low-intensity extracorporeal shockwave therapy for erectile dysfunction: effects on ejaculatory and erectile function</i>	17:10 Tamaki (Japan) - <i>Hagita Role of Umbrella Cells in Micturition and Their Regenerative Time Course</i>
	17:26 Rasa Ruseckaite (Australia) - <i>Postoperative health-related quality of life in patients undergoing primary surgery for stress urinary incontinence</i>	17:15 Sung Tae Cho (Korea) - <i>Prior inguinal hernia repair as a predictor of delayed continence recovery after robot-assisted radical prostatectomy</i>
	17:33 Anaamika Menon (USANZ) - <i>Mesh Perspectives: A Qualitative Study of Women's Experiences After Revision Pelvic Reconstructive Surgery</i>	17:20 Hotaka Mitsui (Japan) - <i>Intravesical dimethyl sulfoxide treatment improves erectile function amongst men with Hunner-type interstitial cystitis</i>
	17:38 Ji_Yeon Han (Korea) - <i>Risk Factor Associated with Recurrence after OM-89 (Uro-Vaxom®) Treatment for Female Patients with Recurrent Cystitis</i>	17:25 Ghassan Barayan (Saudi Arabia) - <i>Urologist preferred interventions for Benign Prostatic Hyperplasia in Saudi Arabia</i>

17:30 Yin Chien Ou (Taiwan) - *Bladder wall injection of high-molecular-weight hyaluronic acid alleviates bladder inflammation and central sensitization in a cyclophosphamide-induced interstitial cystitis/bladder pain syndrome model*

17:35 Damien Deng (USANZ) - *Does MRI eligibility drive adoption? The impact of MRI eligibility on sacral neuromodulation use*

<b>17:45 – 18:30</b>	<b>Plenary session 4: Men's health and male LUTS</b>
Room:	Maritime 1
	Chairs: Muhammad Anwar Irzan (ID), Jae Hyun Bae (KR)
17:45 – 18:00	State-of-the-art lecture (Malaysia) – Warren Lo (MY) - <i>Testosterone replacement therapy in 2026: indications and evidence</i>
18:00 – 18:30	Panel discussion and hypotheticals Eric Chung, Giovanni Losco, Henry Woo - <i>MIST for BPH: Choosing the right tool for your patients (combined USANZ male LUTS SAG and PPCS)</i>
<b>19:30 – 22:30</b>	<b>Conference dinner</b>
	Venue to be confirmed   Open to all delegates

## Sunday 14 June 2026

<b>08:30 – 09:45</b>	<b>Plenary Session 5: Modern Concepts in Functional and Reconstructive Urology</b>
Room:	Maritime 1
	Chairs: Tanya HA (USANZ), China and Japan
08:30 – 08:45	Elizabeth Dally - <i>Transitional Care: Paediatric to Adult Neuro-urology</i>
08:45 – 09:00	State-of-the-art lecture - China: Speaker to be confirmed - <i>Male Sling Surgery: What does the Evidence Say in 2026?</i>
09:00 – 09:15	Jay Simhan (US) - <i>Revitalising Urotrauma Education: Elevating Our Value in GU Practice</i>
09:15 – 09:30	Su Jin Kim (KR) (PPCS) - <i>Recurrent UTI in Women: Role of Microbiome, Vaccines, and the Future</i>
09:30 – 09:45	State-of-the-art lecture - Andika Afriansyah (Indonesia) - <i>The Future of Urodynamics in the AI Era</i>
09:45 – 10:00	Koenraad van Renterghem - <i>Complex Peyronie's disease - Tips on surgical reconstructions</i>
10:00 – 10:15	Q&A discussion
<b>10:15 – 10:45</b>	<b>Morning Tea with Industry</b>
<b>10:45 – 12:30</b>	<b>Plenary Session 6: Complicated Situations in Functional and Reconstructive Urology</b>
Room:	Maritime 1
	Chairs: Sandra Elmer (USANZ), Warren Lo Hwa Loon (MALAYSIA), Chunhao Liao (TAIWAN)
10:45 – 11:00	David Ginsberg (US) - <i>The Neurogenic LUT Dysfunction Patient Who Cannot CISC: What Else Can be Done?</i>
11:15 – 11:15	Eva Fong - <i>Complete TVT and TOT Sling Removal Surgery: Techniques and Outcomes</i>
11:15 – 11:30	Ashani Couchman - <i>The Australasian Pelvic Floor Procedure Registry (APFPR) - Inception, Utility and Future</i>
11:30 – 11:40	Q and A
11:40 – 11:55	Jay Simhan (USA) - <i>Managing the Challenge of Post-Radiation Bladder Neck and Proximal Urethral Stenoses</i>
11:55 – 12:10	Anita Clarke - <i>The Hostile Abdomen with Multiple Scars: How Do I Approach It?</i>
12:10 – 12:25	Jin Yong (SG) - <i>Bladder Diverticulum - When to Intervene and the Role of Urodynamics</i>
12:25 – 12:35	Q&A discussion
12:35 – 12:42	Amanda Chung (USANZ) - <i>Use of a Wearable Microneedle Percutaneous Neuromodulation System for the management of overactive bladder: early results of a pilot randomized controlled trial</i>
12:42 – 12:49	Kexin Xu - <i>Computational Fluid Dynamics Study on the Impact of Benign Prostatic Hyperplasia Surgery on Urine Flow in the Prostatic Fossa</i>
12:49 – 12:54	Gabriel Kong (Malaysia) - <i>Functional Outcomes and Urodynamic Profile Following Complex Lower Urinary Tract Reconstruction: A 5-Year Experience at Malaysia's Largest Tertiary Centre</i>
12:54 – 12:59	Yu-Hsiu Huang (Taiwan) - <i>Clinical Utility of Intravesical Prostatic Protrusion and Prostatic Urethral Angle for Predicting Prostatic Obstruction in Men with Small Prostate Volume</i>
<b>13:00 – 14:00</b>	<b>Lunch with Industry - Foyer</b>
<b>14:00 – 16:15</b>	<b>Plenary Session 7: Nocturia, Ethics, and Nightmares</b>
Room:	Maritime 1
	Chairs: Vincent Tse (USANZ), Sung Tae Cho (KR), Maulidina Medika Rahmita (INDO)
14:00 – 14:15	Wendy Bower - <i>Why Nocturia is NOT Just About Waking Up Once a Night to Pee?</i>
14:15 – 14:30	David Ginsberg (USA) - <i>The Cancer is Gone, But the Bladder Remains: What Next?</i>
14:40 – 15:00	Debate: <i>Should AI Be Used in Research Publication Preparation and Review?</i> MALAYSIA (PPCS) vs Ada Ng (Hong Kong)

15:10 – 15:50	<i>Nightmares in functional and reconstructive urology</i> TAIWAN (PPCS) - Speaker to be confirmed - <i>Should We still Use Mesh in Female Urology?</i> Dominic Lee USANZ - <i>Ileal Neobladder Incontinence Post-Radical Cystectomy in Men: What Can be Done?</i> Q and A <i>Stenosis and Severe Sphincter Deficiency Post-Radical Prostatectomy Incontinence: Is it Necessary to Stabilize the Stenosis Prior to Continence Surgery with Sling or AUS?</i> YES - Tom Jarvis NO - Janelle Brennan
15:50 – 16:10	Crossfire Finale - <i>A healthy 65 yr old with a Difficult to Stabilize 2cm Recurrent Bulbar Urethral</i>
16:15 – 16:30	<b>Closing ceremony - Announcement of PPCS 2027 by the Japanese Continence Society (JCS)</b>
16:30	<b>Conference Close</b>
