

# PBS Authorities – Changes from 1 June 2024

We understand having access to PBS-subsidised medicines can be critical to patient care. That's why Services Australia and the Department of Health and Aged Care are continuing to work together to increase the number of PBS medicines that can be requested and approved in 'real-time' using the Online PBS Authorities system (the system). This will include the changes being made to the medicines for Chronic thromboembolic pulmonary hypertension from 1 June 2024.

These changes will make it easier for you to request authority approval for these medicines from Services Australia. You will no longer need to submit written authority applications, prescriptions and test results for certain medicines and treatment phases. Instead, you will be able to use the system to apply for authority approval and provide evidence digitally.
