Ref.: Invitation to Join an International EAU-EAUN-Endorsed Survey
on Robotic OR Emergency Preparedness

Dear Colleague,

I hope this message finds you well.

My name is Silvia Secco and I'm a urologist based in Milan, consultant at Niguarda Hospital, and a board member of the European Association of Urology Robotic Urology Section (ERUS).

I am pleased to invite your prestigious robotic surgery Center to participate in a research project officially endorsed by both the ERUS and the European Association of Urology Nurses (EAUN).

The project aims to assess - through a brief and anonymous self-evaluation survey - the perception of emergency preparedness among **all members** of the robotic operating room team. This includes robotic surgeons from any specialty, anesthesiologists, scrub nurses, and support staff.

We kindly ask for your support in disseminating this short survey (just a few quick questions) within your team.

The insights gathered will contribute to a **global overview** of team preparedness and will help identify areas for improvement and future training across different centers worldwide.

If your center is willing to take part, we kindly ask you to **confirm your participation by July 10th, 2025 by e-mail at silvia.secco@ospedaleniguarda.it**. Upon confirmation, you will receive access to the secure REDCap survey platform managed by Dr. Liakos from the University of Freiburg.

This study is being conducted in collaboration with Dr. Liakos, Ms. Marta Marchetti (EAUN), and myself. Participating centers from around the world will ensure balanced, high-quality data.

We also plan to develop a series of follow-up initiatives and projects based on the findings, and each participating Institution will be entitled to include two contributors by name in the resulting publications.

We sincerely hope you will consider joining this international project. For any further information or quicker communication, please feel free to contact me directly at +39 349 2923642.

With best regards and appreciation, also on behalf of Dr. Liakos and Ms. Marchetti,

Warm regards,
Silvia Secco
